

AI PDF Analyzer - Sample Document

This is a sample PDF document for testing the AI-powered PDF interaction tool. You can select any text region and ask questions about the selected content.

Try selecting this paragraph and asking:
"What is this document about?"

Features include:

- Visual text selection with drag and drop
- AI-powered question answering
- Document search functionality
- Light and dark theme support
- Multiple AI provider support

The demo mode works without any API keys.
For real AI responses, configure OpenAI or Anthropic API keys in your .env file.

Select any text above and try asking questions!
